**Notes:**

Many of the items/descriptions/prices above can also be found in the Cisco Net-Acad Cost Calculator. For more information and access to the latest Cost Calculator, log-in to the Community Server and visit <<http://cisco.netacad.net/cnacs/prot-doc/la-imp-guide.html>>

High Technology H.S. does not sell or endorse any particular vendor's product. The prices listed above are for "ball-parking" only.

Many of the above items may be substituted with more expensive and/or powerful equipment, as your networking budgets permit. For instance, the "FOUR PAIR CABLE TESTER" may be replaced with a more feature packed device such as the Microtest MicroScanner, or your school may wish to adjust the suggested numbers above by ordering a hand cable tester for every two students, etc.
