This employee has been properly trained in the administration of epinephrine by the school nurse using standardized training protocols established by the Department of Education in consultation with the Department of Health and Human Services and has met the following criteria:

1. Is willing to learn and assume responsibility

Epinephrine and a trained adult user must be immediately available and accessible to the child who needs it.

If the procedures specified in P.L. 2007, c. 57 are followed, the district shall have no liability as the result of any injury arising from the administration of epinephrine to the pupil and we, the parents or guardians, indemnify and hold harmless the district and its employees or agents against any claims arising out of the administration of the epinephrine to the pupil.

Permission is effective for the school year in which it is granted and is renewed for each subsequent year in accordance with P.L. 2007, c. 57.
